

# Curriculum Vitae

---

**Name:** Leyder Herrera Bello

## About Me

I am a passionate third-year software developer studying Computer Engineering at the José Antonio Hecheverría Technological University of Havana (CUJAE).

At 21 years old, with an insatiable thirst for knowledge, I am immersed in the world of programming, constantly seeking new challenges to expand my skills and knowledge.

My goal is to become a high-caliber professional capable of contributing to the creation of innovative and efficient solutions. I am willing to learn new technologies and collaborate on challenging projects.
